ENTRY 5320072 — LEAGUE 1ST (+8 CLEAR)

DEADLINE SAT 10 OCT · 10:00 UTC (11:00 UK)

TOTAL PTS	GW5	OVERALL RANK	SQUAD VALUE	BANK	FREE TRANSFERS
381	59	70,486	£100.6m	£0.5m	2

~~BENCH BOOST · GW2~~ ~~TRIPLE CAPTAIN · GW3~~ ~~WILDCARD · GW4~~ **FREE HIT · LIVE (USE BY GW19)** Second-half chips unlock from GW20.

Free Hit budget = £99.9m (sell values £99.4m + £0.5m bank).

01 THE CALL

RECOMMENDED · OPTION 1

Play the Free Hit. Keep Haaland. Captain Bruno.

Free Hit GW6
12 new for one week · keeps Tarkowski, Haaland, Bentley
£99.9m of £99.9m · model 60.5 vs 52.1 (2 FT)

(C) B.Fernandes
v TOT (H) · model 6.4 · haul≥10 21%
VC Mbeumo · Haaland starts, uncaptained

GW7: 3 FT
squad reverts · provisional, no hit:
Konsa → Gabriel
Palmer → Mbeumo
João Pedro → Calvert-Lewin

- **Six problem slots in one week.** João Pedro (PI: ruled out to ~17/10), Palmer (75%), Konsa and Mykolenko (PI 50%), plus two dead bench spots (Bentley: 0 PL minutes; Akpom: 0 starts). Haaland, Gvardiol and Szoboszlai also meet each other in LIV v MCI.
- **GW6 is the Free Hit's best visible week.** +8.5 over the best 2-FT patch (+10.3 for the model-max draft) vs +4.0 to +6.0 in GW7–11. The real squad then makes the same three GW7 sales as Options 2, 3 and 5, with news in hand: nothing is sold blind and the 2 FTs roll to 3.
- **Over six GWs it's a tie.** Taking −4 now (Option 4) and saving the chip for GW10 projects 334.3 vs 334.2. The case for now rests on GW6: market-based numbers for this week, no hit, and no selling before the pressers. If you want Free Hit insurance to GW19, Option 4 is the sound alternative.
- **League angle.** Bruno and Haaland are in all 5 chasing teams (2nd–6th); Option 1 owns both, so neither can swing the league away this week.

02 FIVE OPTIONS AT A GLANCE

model xPts = XI + captain, no bench · derived

OPTION	TYPE	GW6 MOVES	HIT	GW6	GW6–8	GW6–11	VS ROLL
Roll — no moves now	3 FT in GW7	0	0	48.9	157.6	322.6	+0.0
1 · Free Hit, keep Haaland	Free Hit	FH	0	60.5	169.2	334.2	+11.6
2 · Free Hit, model-max	Free Hit	FH	0	62.4	171.1	336.1	+13.5
3 · Sell the Chelsea doubts	2 FT	2	0	52.1	160.8	325.8	+3.2
4 · Three moves, save FH	2 FT + hit	3	4	51.2	161.6	328.4	+5.8
5 · One move, roll	1 FT	1	0	51.1	159.8	324.8	+2.2
Considered: 2 FT keeping Palmer	2 FT	2	0	52.3	160.3	325.1	+2.5

Every path includes its best GW7 follow-up using only the FTs it leaves (Free Hit or roll → 3, one move → 2, two or more → 1), with no GW7 hits. Options 3–5 still hold the Free Hit; its best visible later week (GW10) would add about +6.0. Full squads and pros/cons are on pp.7–9.

03 LOBSTER LEAGUE — TOP 5 AFTER GW5

"Back late" = national-team game on Tue 6 Oct. The João Pedro and Palmer FPL flags predate the break, so PI and the 6 Oct press are more recent.

02 LEAGUE-WIDE NEWS THAT MOVES DECISIONS

CHELSEA / ARSENAL / MAN CITY

- CHE: **João Pedro** out to ~17/10 (PI). Palmer 75%. Pens: Palmer; no confirmed backup (FFS: Estêvão; RotoWire: Welbeck).

BOURNEMOUTH / LIVERPOOL / MAN UTD / SPURS

- LIV: Gakpo 50%, Ekitike out to ~Dec. Liverpool Echo: "nine players could miss" City.
- MUN: Dorgu hamstring; Mainoo, Amad, Rashford, Mazraoui 50%; de Ligt out. **Bruno and Mbeumo fit**.
- TOT: Porro out to ~19/10, van Hecke 50%, Kulusevski out.

EVERTON / BRENTFORD / BRIGHTON

- EVE: Mykolenko 50%; Maitland-Niles is the likely cover. Barry fit, **2nd on pens behind Garner** (FFS).

- BHA: Mitoma's return being managed; Minteh out to ~24/10. Dunk and Struijk 50%.

Arsenal have the best defence by a distance (4.03 xGC). Lowest raw xG: Villa (4.56), Coventry (4.93), Spurs (5.02). After the fixture adjustment, the model rates Hull's attack weakest (−0.40).

YT AUTO-CAPTIONS VIA yt-dlp + youtube-transcript · FFS ARTICLES · COMPILED 5 OCT

Of the sources checked, only Harry, Mate, FFS and Planet FPL have published since the 4–5 Oct news (Haaland sub, Konsa knock, Scott injury, City verdict). The rest are 11–15 days old and pre-break. Names in captions are often mangled; uncertain ones are marked (?). None of them discusses a GW6 Free Hit; the comparison below is with their Wildcard drafts and transfer plans.

01 WHAT THEY SAID

FPL Harry

5 Oct · FRESH

"MY UPDATED FPL GW6 WILDCARD DRAFTS! So Many Injuries..!"

Wildcard: ~95% yes. Haaland is the only City player he keeps after the verdict. Cutting Wissa (weak data, missed pen) and Van Hecke; rules out Isak. Core across all 4 drafts: Muharemović, Silva, Groß, Haaland, **João Pedro**. Won't pay £8m for Gabriel. No GW6 captain named.

FPL Mate

5 Oct · FRESH (garbled captions)

"FPL GW6: Wildcard Team & Strategy (No Man City)"

Hypothetical WC draft (he used his). **No City players at all.** Kelleher; Gabriel, Konsa, De Cuyper, Silva, Muharemović(?); Bruno, Saka, Rogers, Groß (+ probably Palmer); João Pedro, Gonzalo, Barry. **Captain Bruno** (Spurs at home), Saka the alternative. Rates Rogers better value than Palmer.

Let's Talk FPL

21–22 Sep · PRE-BREAK

"Wildcard team (Haaland AND Fernandes) / Early thoughts"

His own team is rolling. WC draft: Verbruggen/Kinsky; Calafiori, Konsa, De Cuyper, Van Hecke, Silva; Groß, Saka, Schade, Tavernier, Bruno; Haaland, Gonzalo, Barry. **Captain Bruno or Saka.** Sell Sangaré before Szoboszlai.

FPL Raptor

20 Sep · PRE-BREAK

"4 FREE TRANSFERS | MY FPL GW6 TRANSFER PLANS"

No WC (used GW4). Sell list: **Szoboszlai**, Isak, Slater. Plans: Slater → Groß/Tavernier plus Isak → Gonzalo; if João Pedro is out, Pedro → Garcia and (aggressive) Szoboszlai → Bruno. Tentative captain Haaland; "no standout".

FPL Focal

20 Sep · PRE-BREAK

"FPL GW6 TRANSFER PLANS"

No WC. Rolls if João Pedro is fit; otherwise Sangaré → King or Tavernier/Schade. Prefers a double Arsenal defence plus Saka. Captain Palmer, VC Haaland. Leno and Affengruber for cheap Fulham defence.

Fantasy Football Hub

24 Sep · PRE-BREAK

"The PERFECT Wildcard Draft For GW6!"

Raya; Konsa, Van Hecke, Wöber(?), a Brighton CB, Hall; Palmer, Saka, Rogers, Groß, Schade; Haaland, Barry, Gonzalo. No Bruno; Haaland kept for GW7 Ipswich. **Captain Palmer.**

Fantasy Football Scout

"GW6 WC best team · Scout Picks · injury news"

More than half of poll respondents are wildcarding. GW7 may be the better window for Bournemouth and post-Europe info. Konsa knock 'nothing major'; Haaland sub pre-planned. Set-piece table: Palmer, Szoboszlai, Groß, Bruno, Wissa, Calvert-Lewin all first on pens.

"Man City's Guilty Verdict | S.10 Ep.11"

Not covering FPL this week; GW6 and WC drafts are due on the Friday show. Their read on the verdict: likely "no punishment placed this season", but a mindset question mark for City players.

02 CONSENSUS VS YOUR PLAN

MOST-MENTIONED BUYS

Groß (every draft) · Saka (6) · Gonzalo (6) · Konsa (5, now carrying a knock) · Silva BOU (5) · Barry (4) · Muharemović (4) · Schade (4) · King (4) · Rogers (3) · Tavernier (3, now likely on pens).

MOST-MENTIONED SELLS

Szoboszlai (Raptor) · Sangaré · Isak · **Wissa** (Harry) · City players other than Haaland · avoid Alex Scott.

HOW OPTION 1 LINES UP

- **Captain Bruno**: Mate's and LTFPL's pick. Others split (Palmer: Hub, Focal; Haaland: Raptor); everyone calls GW6 "no standout".
- **Haaland kept**: everyone except Mate keeps him.
- **Wissa** in the Free Hit XI goes against Harry. The model likes NEW at COV (λ 1.65), and he's the listed taker despite the missed pen.
- **Groß** (every draft) is already yours. **Szoboszlai** is on Raptor's sell list, but LTFPL sells Sangaré first and the model has him at 24.8 over GW6–11.
- **João Pedro**: still in Harry's core (filmed 5 Oct), but PI has him ruled out to 17/10. Every path here sells him by GW7.

Model captain by GW: GW6 B.Fernandes, GW7 Haaland, GW8 Haaland, GW9 Haaland, GW10 Mbeumo, GW11 Haaland

FOR

Big GW6 gain with no hit: 60.5 vs 52.1 for the best 2-FT patch (+8.5), only 1.8 below the model-max draft. Nobody in the XI has an FPL flag; Haaland (minutes managed v Portugal, model 90%) is the only soft doubt. Keeps Haaland (73.9% owned) for the template swing and adds Bruno. The real squad is untouched, so Konsa/Palmer/João Pedro are sold in GW7 with news in hand (3 FT).

AGAINST

Spends Bart's last chip before GW20: no Free Hit cover for a later crisis. Over six GWs it only matches 'take −4 now, Free Hit later' (334.2 vs 334.3). Zero ITB, so a price rise on a target before you confirm forces a bench downgrade (p.10). Three Newcastle players plus Thomas in the Monday COV v NEW game.

FOR

Highest GW6 projection of any option (62.4) and best six-GW total (336.1). Swaps Haaland (Anfield: 55% blank in the simulation) for Saka (5.9 v LEE) and Cunha. Same GW7 plan as Option 1.

AGAINST

Drops Haaland for a week: 73.9% owned, in all five chasing teams, and 8 of the other 14 top-15 managers captained him in GW5. If he hauls (~14%), Bart loses ground on nearly everyone, for a +1.8 average gain. Triple Man Utd (Bruno, Mbeumo, Cunha).

Model captain by GW: GW6 Mbeumo, GW7 Haaland, GW8 Haaland, GW9 Haaland, GW10 Mbeumo, GW11 Haaland

FOR

Keeps the Free Hit to GW19. Sells the two Chelsea doubts now (João Pedro PI-ruled out; Palmer 75%) for Mbeumo (captain, 5.8 v TOT) and Calvert-Lewin (Leeds pens, 2 G from 3.00 xG). £4.0m ITB in GW6, then the same GW7 squad as Option 1. With a later Free Hit (best visible: GW10) it projects 331.8.

AGAINST

GW6 only 52.1, 8.5 behind Option 1. Konsa and Mykolenko (both PI 50%) stay; Bentley and Akpom are dead bench, so autosub cover is thin. Sells Palmer the week he may return (press expects him back v BOU).

Model captain by GW: GW6 Mbeumo, GW7 Haaland, GW8 Haaland, GW9 Haaland, GW10 Mbeumo, GW11 Haaland

FOR

Best non-chip six-GW total (328.4, +2.6 vs Option 3) and keeps the Free Hit; adding a later FH (+5.9) ties Option 1 (334.3). Gabriel (ARS 55% CS v LEE, 8.2 DC/90) replaces Konsa a week early. GW7: Ødegaard → Tavernier (likely BOU pens).

AGAINST

Takes a –4 and sells three players before the Thursday–Friday pressers; Konsa or Palmer could be passed fit. GW6 51.2 after the hit, level with Option 5 (51.1) and 9.3 behind Option 1. Bentley and Akpom are still dead bench.

Variants considered: keep Palmer and sell Ødegaard + João Pedro instead (GW6 52.3, GW6–11 325.1; Palmer → Saka in GW7). Wissa instead of Calvert-Lewin (GW6 53.3, GW6–11 324.7).

Model captain by GW: GW6 Mbeumo, GW7 Haaland, GW8 Haaland, GW9 Haaland, GW10 Mbeumo, GW11 Haaland

FOR

Smallest commitment: one move, keeps the Free Hit and João Pedro (bench), and rolls to 2 FT for GW7 when Chelsea's and Arsenal's injuries are clearer. Mbeumo captains v TOT (5.8). £2.3m ITB.

AGAINST

GW6 51.1, 9.5 behind Option 1, and the six-GW gap is the same (9.5) because both reach the same GW7 squad. João Pedro, Bentley and Akpom make a dead bench, and Konsa (PI 50%) starts with Mykolenko (also 50%) as the first outfield sub.

ARMBAND: BRUNO (C), MBEUMO (VC)

On the Free Hit, Bruno has the week's highest expected score (6.4) v a Spurs side with a 14% clean-sheet chance; he is Man Utd's only listed penalty taker. Without the Free Hit, captain **Mbeumo** (5.8) over Haaland (5.2, 55% blank at Anfield).

RIVAL VIEW

8 of the other 14 managers in the top 15 captained Haaland in GW5, and Bruno is in all five chasing teams. Option 1 owns both: a Haaland haul (~14%) costs you only the rivals' captaincy share, while captaining Bruno is a **+1.2 xP** edge. As leader, that keeps variance low.

How the simulation works: per-fixture xG/xA, minutes, CS and DefCon from the projection model, with a simplified bonus rule. Its haul rates are for comparing players, not exact probabilities. Palmer's row already includes his 75% availability.

Plan ahead & method

CHECKLIST

- **Thu–Fri pressers.** The Free Hit XI has no fitness doubts except Haaland. If City rule him out, swap him for Saka (Option 2's pick). Alonso (Palmer, João Pedro), Arteta (Konsa) and Moyes (Mykolenko) matter for GW7, and for Options 3–5 this week.
- **Confirm the chip after the pressers.** The Free Hit can't be cancelled once played. The draft uses the full £99.9m. Gabriel (-95%) and Mbeumo (-81%) are closest to a fall, which frees money; Slater (+80%) and Wissa (+68%) show the most rise progress. If it no longer fits, cheapen a bench slot (e.g. Slater → a £4.4m MID) rather than the XI.
- **Bookmaker scorer odds** should be out around Thu 8 Oct. Re-check Bruno vs Saka vs Mbeumo.
- **Bench order** (Option 1): Bentley · Slater · Crooks · Simms.

FREE HIT: NOW OR LATER?

- Model-max Free Hit gain over the best non-chip squad: GW6 **+10.3** · GW7 **+4.0** · GW8 **+4.5** · GW9 **+4.4** · GW10 **+6.0** · GW11 **+4.5**. GW12–19 aren't modelled yet.
- It must be played by the GW19 deadline; no second-half chip unlocks before GW20.
- **Save it (Option 3/4) if** you expect a bigger crisis before GW19, e.g. City sanctions, a winter injury wave or postponements.
- **Play it now if** you value the projected +8.5 this week and avoiding a hit while Palmer, João Pedro and Konsa are unclear.
